

POSITION: Aviation Supply Chain Analyst

DEPARTMENT: Analytics – Supply

LOCATION:

Miami, FL USA

Company Description:

Associated Energy Group, LLC (AEG Fuels) is a global aviation fuels and services supply chain management company. The company's core business is the marketing and financing of fuel supply and logistics solutions for the world's largest airlines, militaries, and corporate operators.

AEG Fuels serves its clients through a network of longstanding relationships with subcontracted parties around the world. Customers are afforded the benefits of negotiated fuel and throughput pricing based on AEG Fuel's aggregate volume within a network of over 2,700 airports as well as the company's specialized expertise in delivering products safely and on-time.

AEG Fuels is dedicated to providing comprehensive support and unparalleled 24/7 service around the world. 17 different nationalities are represented on AEG's team and with offices in Miami, Houston, Tahoe, London, Dubai, and Singapore the company combines a global presence with a local touch.

AEG Core Values:

- Excellence & Teamwork
- Entrepreneurship & Innovation
- Respect & Trust
- Always Do What's Right

Position Description:

AEG supports the supply chain and financing requirements of over 2000 airlines, business jet operators, and militaries. The Aviation Supply Chain Analyst position will be responsible for working with management to support the quality and robustness of AEG's supply chains with the goal of improving the company's sales performance and achieving its strategic supply goals.

The analyst will collect and report on trends in the transaction data relevant to AEG's domestic and international supply teams in order to identify underperforming areas and maximize growth opportunities within the company's portfolio of aviation operators. This will include assisting with the negotiation of supply contracts and agreements with logistics firms and multinational suppliers.

The position will be responsible for preparing supply reports by region and working to optimize the organization's performance in throughput volume, sales revenue, and customer turnover. Individuals working in this position will ultimately evaluate company trends and recommend changes in supply focus in order to meet its goals. The individual will also be responsible for maintaining AEG's data integrity across various accounting and front-end platforms.

Required Skills and Experience:

- 4 Year Bachelor's degree
- Ability to read, write, speak and understand English.
- Advanced to expert Microsoft Excel experience which includes building spreadsheets, pivot tables and working with formulas.
- Ability to professionally interact with others at all levels across the organization.
- Strong communication skills and ability to engage a variety of people and understand their needs (finance, sales, supply chain, marketing, operations)
- Ability to review, analyze, and evaluate business systems and user needs.
- Identify potential problems, present alternatives and propose solutions.
- Able to work under pressure and meet deadlines.
- Ability to prioritize and multi-task in a fast paced, changing environment and be detail oriented.

Recommended Experience:

- Degree in Business, Management, Marketing, Engineering, or related field.
- A background in aviation and/or petroleum distribution
- Comfort translating data sets to non-technical colleagues.
- An understanding of typical business metrics and financial reporting.
- Past experience or coursework in data analysis.
